

# Recruitment of a researcher

## AAATE

The Association for the Advancement of Assistive Technology in Europe (AAATE) is a pan European membership organisation based in Linz in Austria. AAATE is a non-for profit and independent organisation, governed by a board elected by the General Assembly of members.

The mission of AAATE is to stimulate the advancement of assistive technology for the benefit of people with disabilities, including elderly people.

## Open position

To drive the implementation of its activities, AAATE is currently recruiting **a researcher (natural person) in the area of innovation in health and social care due to the process of digitalisation.**

## General information about the position

Period	15/04/2017-30/06/2019
Work load percentage	± 18-21% Total 840 hours in 25,5 months.
Hourly rate	Euro 35/h. (including all taxes)
Location	Europe
Renewable	No
Type of contract	In-house consultant
Deadline for application	31/03/2017

The **researcher in the area of innovation in health and social care** will be assigned to the ProACT ([www.proact-project.eu](http://www.proact-project.eu)) project. He/she will be responsible on behalf of AAATE and together with colleagues from EASPD and AIAS Bologna onlus for a European wide study into factors that impact on the successful transfer of experiences with digital integrated care platforms and services from one context to another. Although the assignment stretches out over a longer period, it is expected that there will be periods of intense and less intense work. Therefore flexibility in time management is requested, as well as a realistic view on what can be reached within the existing timeframe and with the given resources.

**Requirements:** Completed Higher Education in health economy, health organization management, or any other education considered relevant for this position. Good knowledge of models for health and social care delivery across Europe, of transformation in integrated care due to the advancement of digital technologies, of change management in health and social care. Field experience matured in relevant projects and organisations developing, implementing and delivering eHealth and eCare is appreciated.

Excellent academic writing skills in English.

# Recruitment of a researcher

Interested AAATE members and non-members are kindly requested formalize their interest by sending an application letter and an up to date Europass CV (both in pdf format) before the above mentioned deadline to: Silke Haider: [silke.haider@jku.at](mailto:silke.haider@jku.at).

The letter should contain an explicit statement in which they express their consent with the treatment of their personal data by AAATE for the purpose of this selection process only.

All applications will be treated confidentially and by respecting the privacy of the candidate.

Applications that do not meet the deadline will be excluded.

Applicants will receive within 36 hours of their application a confirmation of receipt and be further informed about the procedure.

The selection procedure might or might not involve a remote conference call meeting with the selection committee which is made up of AAATE board members.

The outcome of the selection process is incontestable.
